

BOOMERANG FOR CROWNSHIELD.

He Loses Title of Rear Admiral by His Protest Against Staff Chiefs.

BUREAU HEADS ARE EQUAL.

Navy Personnel Bill, Judge Advocate Lemley Holds, Makes No Distinction Between Them.

Washington, March 9.—Captain Crownshield, Chief of the Bureau of Navigation, exploded a torpedo under his own chair when he protested against staff officers in his official family holding the title of rear admiral. This title belongs prescriptively to the line, to which Captain Crownshield belongs, and he regarded it as a desecration of the term to have it applied promiscuously to people like paymaster-general, surgeon-general, or chiefs of construction and repair.

In section seven of the Navy Personnel bill, which gives bureau chiefs the rank of rear admiral, occur the words: "Neither shall this act be construed as changing the titles of officers in the staff corps of the navy."

On this disconnected sentence, Captain Crownshield raised the contention practically that it would be improper and illegal to address as a rear admiral, Paymaster-General Stewart, Chief Construction Hieborn, Surgeon-General Van Rensselaer and Civil Engineer Endicott, Chief of the Bureau of Yards and Docks.

This contention of the law would leave in the command of the title of Rear Admiral, Captain Crownshield, Captain O'Neill, of the Ordnance Bureau, and Commander Bradford, of the Bureau of Equipment, these being line officers.

The protest of Captain Crownshield was filed with the Secretary some days after he had written to the staff officers advising them of the change made by the bill and actually addressed them as rear admirals. That title certainly appears on the letters to Paymaster-General Stewart and Commander Hieborn.

The Secretary to-day referred Captain Crownshield's law point to Captain Lemley, the Judge Advocate General of the Navy, who is not in interest.

Captain Lemley wrote his decision this evening, and sent it to the Secretary. He holds that, construing the act all together, the chiefs of bureau, whether they belong to the line or the staff, are entitled only to the title of their offices—as, for instance, the surgeon-general, holding a staff office, is to be addressed as Surgeon-General officially, but that Captain Crownshield, the chief of the Bureau of Navigation, must be addressed as Captain and not as Rear Admiral.

By this decision Captain Crownshield has gained nothing and has lost the right to be addressed as Rear Admiral. The staff officers were all addressed unofficially to-day as Rear Admirals, and they will continue to be so called notwithstanding the protest and its result.

It was learned to-day that Captain Crownshield appeared before the House naval committee and had inserted the provision above quoted. It has proved to be a boomerang.

THIRTEEN MEN INJURED.

Explosion in the Mahanoy City Colliery Does Considerable Damage.

Pottsville, Pa., March 9.—By an explosion of gas to-day in the Mahanoy City colliery, operated by the Philadelphia & Reading Coal and Iron Company, thirteen men were more or less seriously injured; two probably fatally. The explosion occurred in the west seven-foot gangway, doing considerable damage. The cause is a mystery, but the little is known is kept secret by the officials. The injured are:

Patrick Brennan, aged fifteen years, driver boy, right arm broken, right hand badly burned; chest and abdomen and arms badly injured.

Michael Leuger, arm broken, badly burned; probably fatal.

John Mills, badly lacerated scalp.

Bernard Nider, right arm broken, chest and abdomen injured.

John Junkett, head, face and hands burned.

Steve Schell, head, face and arms burned.

William Spotts, slightly burned.

Ando Dando, face, chest and arm burned.

Two men, names unknown, slightly burned.

IS THIS THE REWARD OF A GREAT VICTORY?

Brave Colonel Silloway Allowed to Suffer Poverty by the Country for Which He Fought Through 32 Civil War Battles.

For more than a week Colonel William Anderson Silloway, who served with distinction in thirty-two battles of the civil war, has been waging a desperate struggle with extreme poverty and starvation in the basement of the house at No. 149 Waverley place. With the grizzled veterans on this forlorn battle ground where he has his hut but not defeat is his wife, choosing him and nursing him to renewed effort.

Last week, when their rent of \$3 was due, they had nothing with which to pay it. The Colonel pawned his watch for \$2.25, landlady gave him until Tuesday of this week to pay the balance. A coat pawned for 25 cents gave them five loaves of bread, the only food Colonel Silloway and his wife had had for a week until last night. They had been given until last night to raise the \$1 due on last week's rent and the necessary \$3 for the week to come.

Weak with hunger and maddened with the thought of the fate in store for his devoted wife, the gallant old hero trudged the streets from morning till night hunting vainly for employment. Yesterday evening he returned home prepared for what he believed would be their inevitable eviction.

In the meantime their destitute condition had been brought to the attention of the Journal, and a representative was detailed to investigate the case and to give at least temporary relief. On the first visit the Colonel was out. His wife, a gentle, refined woman, disinclined to speak of their urgent needs, apologized for the state of the room. It was learned that there had been no fire in their bleak grate for over a week.

When the Colonel came in he said they would not like to accept more than temporary assistance, as he hoped soon to secure employment. The brave old officer, who had thirty-seven years before received almost a death wound in the notable charge against Confederate bayonets Turner's Gap, at the battle of South Mountain, wept as he took the offering.

For all his service to his country Colonel Silloway has never received any remuneration. At the outbreak of the war

BEEF CANNED FOR BEEF INQUIRY.

After Due Notice the Investigators Visit the Packing-House in Chicago.

EAT SOME OF THE MEAT.

Colonel Davis Takes a Second Helping, and Ostentatiously Declares It Good.

Chicago, March 9.—The three generals of the Army Board of Inquiry, investigating General Miles' charges, began their work in Chicago to-day by visiting the stock yards. They followed the squealing porker from the knife thrust that ended his squeal to the cooling house, where the dressed sides hung in rows.

They also saw the beef on hoof pass into dressed beef for the market block, and choked and spluttered in the steaming acid smells of the tanks in which condemned meat was converted into a pulpy mass. It was in Armour & Co.'s house, and the same tank, Armour's men told them, that Thomas Dolan averred had a false bottom to shunt the carcass into a lower chamber, whence it found its way back to the canning room.

It may be the same vat, and it may not. Enough time has elapsed since the Beef Inquiry came to Chicago to make all sorts of changes at the yards.

The officers looked upon the seething bath in which the carcasses were dropped, and expressed themselves satisfied that the tank had no false bottom.

The generals and a party of newspaper men not by court, W. S. Davies, chief of the operation of canning meat and had a luncheon in which the chief dish was some canned roast beef, sold by Congress and the company of the tropics in the hold of a commissary steamer. The beef had been heated and was pronounced palatable.

The general and a party of newspaper men were met by the beef, which was served in a tin can, and the general, who was not in his favor, but when cooked it was not so bad as he had feared.

The Board convened at the Pullman building at 10 o'clock this morning, and after a brief executive session devoted to the line of the staff, are entitled only to the title of their offices—as, for instance, the surgeon-general, holding a staff office, is to be addressed as Surgeon-General officially, but that Captain Crownshield, the chief of the Bureau of Navigation, must be addressed as Captain and not as Rear Admiral.

By this decision Captain Crownshield has gained nothing and has lost the right to be addressed as Rear Admiral. The staff officers were all addressed unofficially to-day as Rear Admirals, and they will continue to be so called notwithstanding the protest and its result.

It was learned to-day that Captain Crownshield appeared before the House naval committee and had inserted the provision above quoted. It has proved to be a boomerang.

ONE M'GURK SEIZED. MAY RAID THE DEER HOLE.

Police Stung to Action by the Journal's Exposure of "Suicide Hall."

WARRANT ISSUED BY POOL.

It Charged Patrick, Brother of the Infamous John, with Keeping a Disorderly House.

M'GURK'S MUST GO!
McGurk's dive must go!
It is the most disreputable place in the city. The police know its influence for viciousness. They know its awful record. They know McGurk. They know that the place and McGurk ought to go.
The dive was open last night and until this morning.
No one committed suicide at the door between midnight and daybreak. But the record of suicides there for the week is three.
McGurk's dive must go!
From the Journal of Wednesday.

Patrick McGurk was arrested last night. He is the manager of "Suicide Hall," No. 235 Bowery. His brother, John McGurk, is the owner and the man with the "pull." John McGurk is alleged to be an inviolate just now. The police give this as an excuse for arresting his brother in preference to himself.

Chief Devery said two days ago that No. 235 Bowery was a perfectly orderly place, conducted in a lawful manner. Captain Dimond, in whose precinct it and McGurk's other two dives are situated, said the same thing. They both deprecated the idea of interfering with the business of such an estimable citizen as McGurk, of "Suicide Hall."

They have changed their opinion since then. The warrant on which they arrested Patrick McGurk last night charged him with maintaining a disorderly house at No. 235 Bowery. This "disorderly house" is the place Devery and Dimond said was conducted strictly according to law. It is the place where three girls in their teens committed suicide during the past week. It is the place where a dozen girls and women have killed themselves recently.

Three or four years it is the scene of innumerable robberies and brutal assaults. If McGurk is not closed at 1 o'clock to-day, said Captain Dimond, last night after the arrest of McGurk's brother and father, "I'll raid it."

Certainly something must have happened to alter this police captain's views about "Suicide Hall."

Journal's Expose the Cause.
This had happened: The Journal had printed the facts, and told the police and the public what those facts meant. The Journal had told of the three suicides in one week of the robberies and assaults and general lawlessness of "Suicide Hall," and had told about McGurk and his "pull," and had said again and again:

The McGurk must go!
The warrant on which they arrested Patrick McGurk last night charged him with maintaining a disorderly house at No. 235 Bowery. This "disorderly house" is the place Devery and Dimond said was conducted strictly according to law. It is the place where three girls in their teens committed suicide during the past week. It is the place where a dozen girls and women have killed themselves recently.

Three Girls Within One Week Have Been Driven by Its Degradation to Take Poison.

The Chief of Police Reads the Journal.

KINGS COUNTY IN REVOLT, TOO.

Quigg Tries in Vain to Whip Republicans There Into Line.

Governor Roosevelt and former Governor Black will sit together at the banquet to-night for the first time since the one succeeded the other in the Executive chair.

The Governor is to respond to the toast "Our Party," at the West Side Republican Club dinner to be given at Sherry's. Mr. Black will follow with a speech about "Triumph of Republicanism." John Proctor Clarke is to preside, and nearly four hundred of the leading Republicans of the city are to be guests.

Governor Roosevelt is to remain over until Monday. Saturday will be spent trying to cajole New York City Republican Senators and members of the Assembly into promises to help him break the deadlock over the police, biennial sessions and civil service bills.

The Governor made a bid for the job of last week when he was here, not a single machine leader deigning to call upon him. He is banking on better luck to-morrow.

The revolt against the Governor's program has been a long one. It began in Kings County that a special meeting of the Republican County Executive Committee was called for last night. In the hope of whipping the departing Senators and members of Assembly into line, Senators Davis and Marshall and a majority of the Republican Assemblymen, having either openly or privately declared their intention of helping to kill the Police, Biennial Sessions and Civil Service bills, Chairman Atterbury asked former Congressman Quigg to go to Brooklyn and attempt to convince the leaders that Senator Platt's sincerity in support of the Governor's policy is not a myth.

Quigg was there last night and talked about the best of single-headed politics. He was the only way to scotch Chief Devery and put John McCullagh or some other Republican in his place was the stand by the Governor, who was desirable were biennial sessions and civil service, provided the latter protected Republicans now in office.

After Quigg had exhausted the subjects and himself, former Sheriff William J. Rutledge, right bower of Jacob Worth, delivered an onslaught upon the Governor's programme, declaring that the police bills would make a gift to Tammany Hall of the entire police department, just as Senator Platt had presented to Tammany the Greater New York in 1897.

A hot debate lasting until midnight, followed. A resolution instructing the Kings County members of the Legislature to stand by the Governor was defeated.

Chairman Atterbury, who counts on being Commissioner of Records if his bill abolishing the present three-headed system goes through, pleaded with the leaders to stick to him and to the Governor. Finally a resolution was adopted, said to be about as much as the Governor could expect. The Worth people assert that it will have just about as much effect at Albany as Quigg's recent visit there.

ALL MUST BE VACCINATED.
Cleveland (Ohio) Health Officers Are Alarmed at the Spread of Smallpox.

Cleveland, O., March 9.—The health officers decided to enforce compulsory vaccination in this city. There has been a great deal of smallpox in town, and it seems to be spreading. To-day a policeman in the Fourth District was taken down with it.

A conference of leading physicians was held this afternoon, and it was decided to make vaccination compulsory. All manufacturers and merchants will be requested to see that their employees are vaccinated. The school children have already been vaccinated.

This is John McGurk, the Dive Keeper. His place on the Bowery is notoriously disreputable, and repeatedly the Journal has called for its suppression. Three young girls coming from there have committed suicide within the last fortnight.

GERRY SOCIETY BEGINS ITS ROOM.

Magistrate Pool's Eviction Overruled by Inspector Geraty.

When Agent Dimond was ejected from the record room on Wednesday Magistrate Pool ordered padlocks placed on the door, and refused to admit the agents under instruction from Inspector Frank W. Geraty, of the Department of Public Buildings, removed the locks. Agent Dimond held the key to the original lock, and when Magistrate Pool appeared in court yesterday morning the Gerry agent was in full possession.

The parents and friends of three children who had been arrested by the agents made themselves comfortable in the room and finally the Sergeant in charge of the room, and the agents to clear the room. Every one obeyed the order but the agents. When the children arrested by them were finally removed, the agents of the Gerry agent were in full possession.

Magistrate Pool declared that no further effort will be made to clear the room. He will after the next meeting of the Board of Magistrates. Until that time the Gerry agents will be responsible for all records and papers in the room.

McKINLEY AFTER REED'S SCALP.

It Is Said He Wants Sherman, of New York, as the Next Speaker.

IN LINE WITH HIS POLICY.

The Present Autocrat of the House Is Opposed to All the President Wants.

Washington, March 9.—President McKinley has decided, it is said, to declare war on Speaker Reed.

He has caused it to be suggested to Representative James Sherman, of New York, that if he would decline the appointment recently offered him as a member of the Board of General Appraisers, and if he would make the race for the Speakership against Mr. Reed, he could be assured of the hearty support of the Administration.

Mr. Sherman has been confirmed in his new position, but he has not yet accepted the place. There is still time for him to consider the President's proposition and to retain his seat in the House of Representatives. Whether he will do this is very uncertain, for the reason that he and Speaker Reed are warm personal friends, and he might hesitate to enter into a contest with him even for the sake of the Administration. Mr. Sherman is now at his home in Utica.

Speaker Reed has taken no pains to conceal his hostility to President McKinley personally, to his whole Administration and to its policy.

Some of the particular reasons that make it desirable for McKinley to get rid of the Speaker of the House should be more in accord with the Administration in the next Congress are that the following subjects in which the President is much interested will come up for consideration and action: The Nicaragua Canal.

Army legislation.

Governments for Porto Rico and Hawaii. Legislation respecting the Philippines.

President McKinley is very anxious that the Nicaragua Canal be started under his Administration. He wants free course in the next Congress for the legislation that will have become a law on March 3.

Congressman Sherman is known to favor the canal. He is friendly to the expansion policy.

He could obtain the support of practically the entire New York delegation, which would be a great help in the race for the Speakership. Therefore Mr. Sherman will be the Administration candidate for that place if he will make the fight.

STORM SANK 2 BARGES AND 3 LIVES WERE LOST.

The Marion and Mayflower Lost Off Barnegat on Tuesday and the Latter's Crew Drowned.

News was received yesterday of the loss of two barges, the Marion and Mayflower, off Barnegat, N. J., on Tuesday. The barges were owned by the Thames Towboat Company, of New London, Conn., and were being towed by the tug Waterman.

In the height of the storm which preceded the loss of the barges, the tug Waterman parted, leaving the barges helpless. With great difficulty the three men on the tug, but in the meantime the Mayflower had drifted away and could not be found. It is feared she has foundered with her crew of three men. The Waterman tried to take the Marion in tow again, but was unsuccessful.

Threaten to Sue the Mayor.

City Marshal Robert W. Oliver was summoned before Mayor Van Wyck yesterday on a charge of retaining \$8 on a judgment. The complainant was Lawrence Fessenden, of New York City. After hearing one witness the lawyer asked for an adjournment to produce others. You will have no other hearing," said the Mayor. "The case is dismissed, and I would advise the Marshal to go to the District Attorney and proceed against you for obstructing justice. I will threaten to sue the Mayor for slander."

Albany, March 9.—The Astoria Gas Grab bill, through the double influence of cash and the Republican machine, was advanced to third reading in the Assembly to-day. It is now within one step of passing the House.

Those who have watched its progress since it first appeared are sure that within a few days the measure will be awaiting the approval of Mayor Van Wyck. An earnest effort is making to bring the session to a close this month. The Mayor may keep the bill fifteen days. If he votes it then the Legislature will be obliged to pass it again.

The immense influence that is now forcing the bill forward is great enough to hold the Legislature in session for an extra month if necessary to save the bill from defeat.

Chairman Odell, of the Republican State Committee, the chief agent for the Gas Trust, wanted the struggle from Speaker Nixon's room, and Chairman Mallet, of the Assembly Cities Committee, one of the legislative tools of the trust, led the battle to advance the bill. Apparently the fighting was all done on the floor, but the fact is that for three weeks the lobby has been busy gathering votes for it.

Minority leader Palmer made a gallant fight against the measure. He said that "the measure was a party measure designed to enact legislation to curb the trusts. It was really only interested in creating the most selfish and gigantic trust in the history of the State."

"This bill," he said, "seeks to grant a charter in perpetuity in violation of the charter of New York City, which limits charters to twenty-five years. It is a trust bill; it is opposed to the interests of the masses; it seeks to keep up the price of gas; it confers upon the Gas Trust power over the entire State. If this bill becomes a law the gas companies behind it will have the power of crushing out all competition by taking the property of their competitors. The bill confers upon certain companies power to go anywhere in the State and seize any property they desire. It is the most villainous measure that ever came within my experience."

Mr. Mallet made a fine defence of the bill. He asserted that all the bill did was to grant authority to the Astoria Company to extend its pipes under the East River from Lawrence Point in Queens County to Manhattan Borough.

Assemblymen Green and Hoffman, Democrats, made motions looking toward the defeat of the bill, but they were beaten. Mr. Green said the franchise sought was worth millions of dollars, and yet the com-

pany was seeking to acquire it for nothing. "I asked Elhuil Root," he said, "if he would consent to fix the price of gas at ninety cents, and he told me that it would not cost him a cent more."

Assemblyman Harburger, in order to get a roll call, so that the friends of the bill might be distinguished from its enemies, moved for the passage of a ninety-cent gas bill for the pending measure.

"The people don't want this bill," he said, "but they who want gas for ninety cents. Behind the Astoria bill is Elhuil Root, the lawyer of the Gas Trust, and friend of the Governor, and Frank Platt, son of the United States Senator. This is a steal bill. It is being forced on the Legislature by corporations which consider legislators as only so many cattle to be bought and sold."

Mr. Harburger's motion was lost—vote 83 to 57. Eleven Democrats refused to follow their leader and voted against it. Here are their names:

Anthony P. Barrett and Michael J. Kane, of Erie.

Thomas J. Farrell, Francis P. Gallagher, Charles Juengst, James J. McTeer, John McKee, John All-Drige, Schmidt and Charles C. Schoenbeck, of Kings.

Wm. B. Gale, of Queens.

Lyman W. Redington, of New York.

Mr. Redington has the distinction of being the only Tammany man who voted with the Trust.

C. RAOUL DUVAL'S NEW COUNTRY SEAT BY MEADOWBROOK CLUB MEMBER V TO HAVE SPENT HIS MONEY THERE.

The country seat of C. Raoul Duval, one of the members of the Meadowbrook Club, which has been in construction for several weeks, a have been occupied in a short time. Duval, was almost totally destroyed this afternoon. The house on the Whetley Hills and is most attractive of the country members of the Meadowbrook Club. It is the country seat of Whitney, F. D. Morgan, Th. Cook, Jr., Perry Tiffany, C. Al. and other well known club members. The house was built on the Whetley Hills, which were on the north wing of the house destroyed.

The fire was first discovered wing of the three-story building efforts of the workmen to fight were useless. In response to messages the Westbury and Mt. partners arrived in time to the first floor, the stable on the north wing of the house destroyed.

Mr. Duval, who is at present, and who is engaged to be married, occupied the place during a honeymoon. He is a member of Duval & Stevens, of this city. The loss cannot be estimated. The mansion is so badly ruined that portion of it will have to be rebuilt.

Is It a Trifle?

THAT COMMON TROUBLE, ACID PEPSIA OR SOUR STOMACH.

Now Recognized as a Cause of Serious Disease.

Acid dyspepsia, commonly called heartburn or sour stomach, is a form of indigestion resulting from fermentation of the food. The stomach being too weak to digest it, the food remains until fermentation begins, filling the stomach with gas, and a bitter, sour, burning taste in the mouth is often present. This condition soon becomes chronic, and, being an every day occurrence, is given but little attention. Because dyspepsia is not immediately fatal, many people do nothing for the trouble.

Within a recent period a remedy has been discovered prepared solely to cure dyspepsia and stomach troubles. It is known as Stuart's Dyspepsia Tablets and is becoming rapidly used and prescribed as a radical cure for every form of dyspepsia.

Stuart's Dyspepsia Tablets have been placed before the public and are sold by all druggists for 50 cents per package. It is prepared by the F. A. Stuart Co., Marshall, Mich., and while it promptly and effectually restores a vigorous digestion, at the same time it is perfectly harmless and will not injure the most delicate stomach, but, on the contrary, by giving perfect digestion, strengthens the stomach, improves the appetite and makes life worth living.
